Release Notes

Release Notes Aranda Software Delivery 8.4.8

CASE 200507:

Problem presented with the log generated by the execution of the packages (ASDInstall.log) is solved, the sections of the debug mode are deleted from the log.

⚑ NOTES OR ADDITIONAL INSTRUCTIONS:

- Run the "asd_8.4.8.exe" file and follow the instructions in the installer.
- The executable file functions as both an installer and an update tool.
- This update applies only to databases in version 8.0.131.

Release Notes Aranda Software Delivery 8.4.7

CASE 200312:

Problem presented with Aranda Software Delivery packages when they were executed in Windows 10 is solved, now packages generated either with (MSI) or (.bat) files, can be executed correctly in client environments with that Operating System.

Once the update is done, the packages must be generated again for the problem to be solved.

⚑ NOTES OR ADDITIONAL INSTRUCTIONS:

- Run the "asd_8.4.7.exe" file and follow the instructions in the installer.
- The executable file functions as both an installer and an update tool.
- This update applies only to databases in version 8.0.116.

Release Notes Aranda Software Delivery 8.4.6

Adjustments are made to the product to ensure its correct operation when the TLS 1.0 protocol is inactivated in both the Database server and the Application server. If you want to work under this configuration, you need to install the SQL Client on the application server (Microsoft SQL Server 2012 Native Client).

⚑ NOTES OR ADDITIONAL INSTRUCTIONS:

- Run the "asd_8.4.6.exe" file and follow the instructions in the installer.
- The executable file functions as both an installer and an update tool.
- This update applies only to databases in version 8.0.104.

Release Notes Aranda Software Delivery 8.4.5

10808:

A modification is made to the product installer solving a problem presented with the deletion of Projects from the Aranda Software Delivery console.

⚑ NOTES OR ADDITIONAL INSTRUCTIONS:

- Run the "asd_8.4.5.exe" file and follow the instructions in the installer.
- The executable file functions as both an installer and an update tool.
- This update applies only to databases in version 8.0.91.

Release Notes Aranda Software Delivery 8.4.4

CASE 10563:

Addresses issue with packages that perform file execution .bat in the context of user "CURRENT_USER". For these packages to work properly, once the update is made, they must be recreated and published.

⚐ NOTES OR ADDITIONAL INSTRUCTIONS:

- Run the "asd_8.4.4.exe" file and follow the instructions in the installer.
- The executable file functions as both an installer and an update tool.
- This update applies only to databases in version 8.0.84.
