Release Notes

Release Notes 8.11

Release Notes CMDB 8.11.32

CASE PM-65398-19-201790

An adjustment is made in the CMDB web console, to solve the problem that arose with the alert generated at the time of saving an additional field, exceeding the maximum allowed (30). Now, the alert will be displayed as follows:

NOTES OR ADDITIONAL INSTRUCTIONS

- Run the “Aranda.CMDB.Web.Installer_8.11.32.exe” file and follow the installer’s instructions.
- The executable file functions as both an installer and an update tool.
- This update applies only to databases in version 8.0.169

Release Notes CMDB 8.11.31

CASE PM-37931-19-201165:

An adjustment is made in the CMDB web console, to solve the problem that arose with the alert generated at the time of saving a supplier without filling in the NIT field.

NOTES OR ADDITIONAL INSTRUCTIONS

- Run the “Aranda.CMDB.Web.Installer.exe” file and follow the installer instructions.
- The executable file functions as both an installer and an update tool.
- This update applies only to databases in version 8.0.157

Release Notes CMDB 8.11.30

CASE PM-37090-19-201131:

Adjustments are made in the CMDB web console to address the issue that occurred when editing a CI without filling out the cost center field.

Note: In the Database patch delivered with this version, a script is included that updates to NULL all records that have the values (Select...), (Select...) and (Select...) stored in column CI_CONFIGURATION_ITEM.FL_STR_COSTCENTER_.

NOTES OR ADDITIONAL INSTRUCTIONS

- Run the “Aranda.CMDB.Web.Installer.exe” file and follow the installer instructions.
- The executable file functions as both an installer and an update tool.
- This update applies only to databases in version 8.0.156

Release Notes CMDB 8.11.29

CASE PM-32818-19-200959:

Adjustments are made in the CMDB web console to address the issue when displaying states in the transitions window.

NOTES OR ADDITIONAL INSTRUCTIONS

- Run the “Aranda.CMDB.Web.Installer.exe” file and follow the installer instructions.
- The executable file functions as both an installer and an update tool.
- This update applies only to databases in version 8.0.150

Release Notes CMDB 8.11.28

CASE 300364:

The list of AAM synchronization configurations (Parameter Configuration / Project / Synchronization with AAM) of CMDB Web is modified, to show the complete hierarchy (from the parent node to the selected node) of the grouping and category. The nodes will be shown separated by point.

Sincronización con AAM

Personalice las opciones para sincronizar las estaciones de AAM con Aranda CMDB. Este proceso se ejecuta automáticamente o manual algún registro.

Nuevo

Seleccione la(s) configuración(es) que desea sincronizar.

	Agrupación	Categoría

☐	Pruebas P200475.P200475-A4.P200475-A4-01.P200475-A4-0101	P200475 - Importar/Exportar.P200475-H4.P200475-H4-01.P200475-H4-0101

NOTES OR ADDITIONAL INSTRUCTIONS

- Run the “Aranda.CMDB.Web.Installer.exe” file and follow the installer instructions.
- The executable file functions as both an installer and an update tool.
- This update applies only to databases in version 8.0.145

Release Notes CMDB 8.11.27

CASE 200716:

Adjustments are made in the CMDB web console so that when creating contracts, the contract type and status are correctly saved in addition to the rest of the information entered.

NOTES OR ADDITIONAL INSTRUCTIONS

- Run the “Aranda.CMDB.Web.Installer.exe” file and follow the installer instructions.
- The executable file functions as both an installer and an update tool.
- This update applies only to databases in version 8.0.143.

Release Notes CMDB 8.11.26

CASE 200658:

Adjustments are made in the CMDB web console so that in the fields that handle values with currency format, the thousand and decimal separators are visible according to the format handled by the configured country. The Affected options are:

- Currency Settings (Parameter Settings/General/Currency Settings)
- Creating and editing CIs (fields Price and value to save tab General dataeyelash Depreciation).
- Creation and editing of contracts, invoices, other documents and budgets.

CASE 200678:

Adjustments are made in the CMDB web console so that when saving scheduled states in the CIs edition, the state change is scheduled only if the date and time of the scheduled state is greater than the current one. If a date and time less than or equal to the current one is entered, the scheduled status date in Database will not be updated and the status change will not be scheduled.

NOTES OR ADDITIONAL INSTRUCTIONS

- Run the “Aranda.CMDB.Web.Installer.exe” file and follow the installer instructions.
- The executable file functions as both an installer and an update tool.
- This update applies only to databases in version 8.0.142.

Release Notes CMDB 8.11.25

CASE 200575:

Adjustments are made in the CMDB web console to display the Company Departure Date field on the General data of the CIs. This field is not editable by the user and will show the date of inactivation of the CIs.

CASE 200582:

An adjustment is made in the CMDB web console to include the Reactivate CIs button in the Configuration Items views by Categories, Groupings and Profiles, this button allows you to reactivate CIs in bulk.

Para reactivar CIs masivamente, es necesario seleccionar los CIs a reactivar.

Elementos de configuración								
☐	Identificador	Nombre	Estado	Serial	Etiqueta de inventario	Categoría	Marca	Modelo
☐	1							

Al aceptar se reactivan los CIs seleccionados.

Elementos de configuración								
☐	Identificador	Nombre	Estado	Serial	Etiqueta de inventario	Categoría	Marca	Modelo
☐	1	Monitor Dell2345	En mantenimiento	Dell001	Dell001	Equipos de computo	Dell	Dell Vostro 3400
☐	2	Teclado Dell2345	En uso			Equipos de computo	Dell	
☐	3	Impresora Dell2345	En mantenimiento			Equipos de computo	Dell

☐	10	Monitor Samsung	En mantenimiento			Equipos de computo		
☐	11	Portatil Acer 4540	En mantenimiento			Equipos de computo	Acer	Acer Aspire 7

Si no se seleccionan CIs, se muestra el mensaje “Debe seleccionar un CI”

Si se selecciona un CI que no esté inactivo, se muestra el mensaje “El CI ya está activo”.

Se incluye el siguiente permiso en Profile para la aplicación ARANDA CMDB. El permiso va habilitado por defecto para el grupo Administrator: REACTIVATE CI: When enabled, it displays and allows you to use bulk CI reactivation (Reactivate CI button) and individual CI reactivation (right click on the CI/Reactivate CI). When disabled, the CI Reactivation options are not displayed. —

NOTES OR ADDITIONAL INSTRUCTIONS

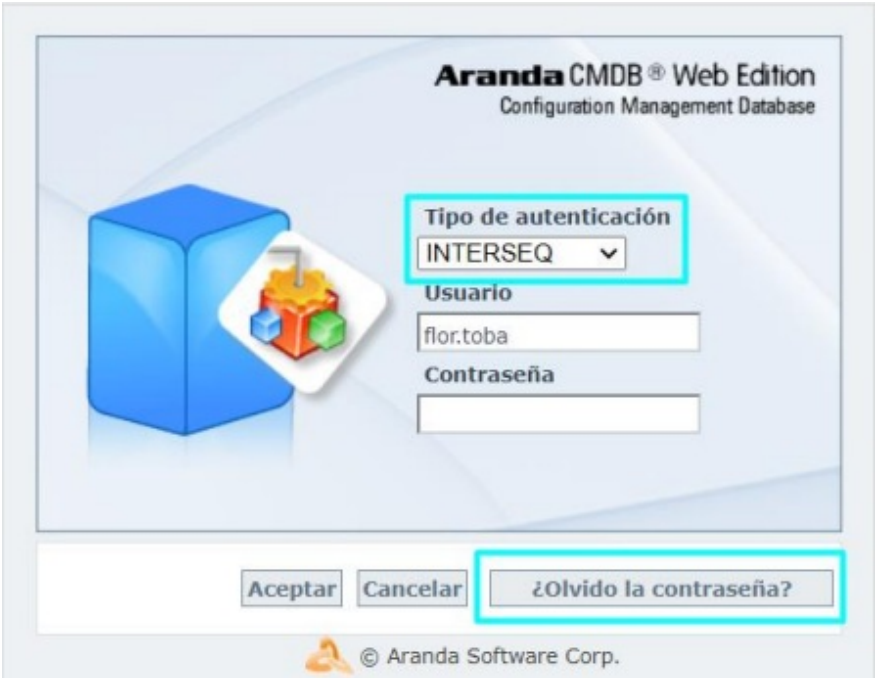

- Run the “Aranda.CMDB.Web.Installer.exe” file and follow the installer instructions.
- The executable file functions as both an installer and an update tool.
- This update applies only to databases in version 8.0.141.

Release Notes CMDB 8.11.24

8.11.24:

DESCRIPTION OF EACH BUG FIXED

An adjustment is made in the CMDB web console so that when you click Forgot Password? With some kind Active Directory Authentication Tool, point to the PassRecovery URL configured in BASDK (Options/Summary)

Aranda PassRecovery

ES

Para Comenzar ...

Con este utilitario podrá recuperar, desbloquear y cambiar su clave de acceso de Windows. Complete la información para realizar las acciones que desea.

Seleccione el dominio y usuario de windows

Usuario

usuario

Continuar

En esta página tendrá que ingresar el usuario para el que se requiere restablecer la contraseña. Al ingresar, en el logo de la aplicación se mostrará el texto “For active Directory” para identificar que el cambio de contraseña se está realizando sobre el Directorio Activo.

Aranda PassRecovery

For Active Directory

Preguntas de seguridad

Por favor ingrese las respuestas a las siguientes preguntas de seguridad con el fin de validar su identidad

¿Cuál es el segundo nombre de tu padre?

¿Cuál es tu comida favorita?

¿Cuál es el nombre de tu primer maestro?

Una vez se confirme el ingreso de las preguntas de seguridad, se podrá restablecer la contraseña.

Qué desea hacer

Seleccione una opción

Restablecer contraseña

Restablecer Contraseña

Nueva contraseña

Confirmar contraseña

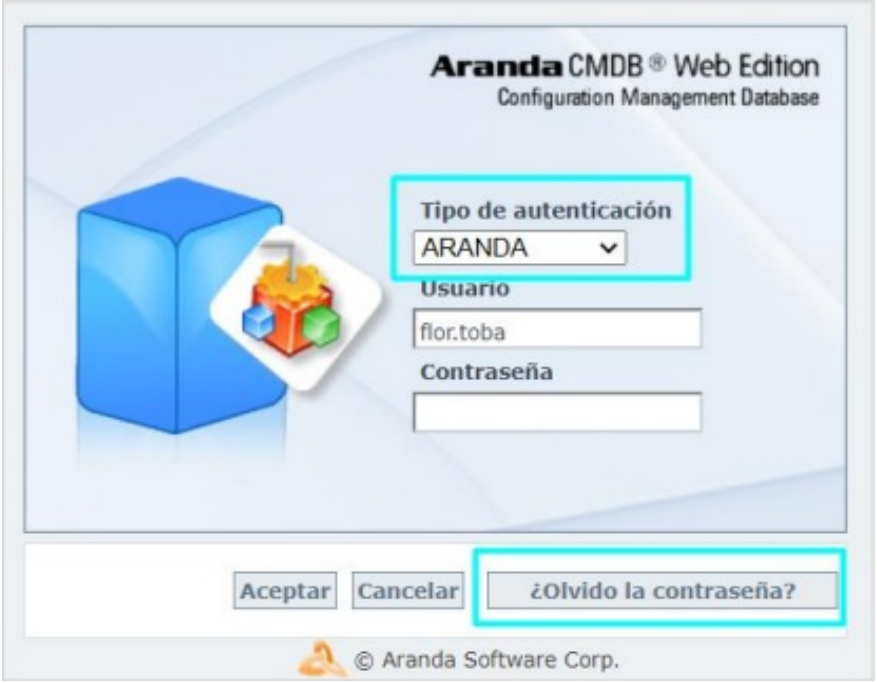

Para el cambio de contraseña tenga en cuenta las siguientes recomendaciones:

- La longitud mínima es de 7 caracteres
- Que no coincida con sus últimas 4 contraseñas
- La contraseña debe tener al menos una letra mayúscula, una letra minúscula, un carácter no alfanumérico o un número. Además, no contener el nombre de cuenta de usuario o partes del nombre completo del usuario en más de dos caracteres consecutivos.

Cancelar

Aceptar

El cambio de contraseña para la autenticación de Aranda continúa funcionando como hasta la fecha, se envía el correo con el enlace para restablecer la contraseña.

En la imagen del encabezado del correo de restablecimiento de contraseña se dejó solamente el logo de Aranda Pass Recovery. —

DESCRIPTION OF CHANGES IMPLEMENTED IN CASE 300458:

- Two new services are added to CMDBAPI to allow associateuser and disassociateuser users of a CI.
- Details of the functionality of the new services can be found in the latest version of the CMDB API User Manual (CMDB API Integration Manual v1.5.pdf).

NOTES OR ADDITIONAL INSTRUCTIONS - RELEASE NOTES Aranda CMDB Web 8.11.24

- Run the “Aranda.CMDB.Web.Installer.exe” file and follow the installer instructions.
- The executable file functions as both an installer and an update tool.
- This update applies only to databases in version 8.0.140
