

The Aranda Helper 9.5.4 application is an application for Android mobile devices, which allows the registration and monitoring of cases such as Requests, Service Requirements, Incidents and Changes, in which the user can navigate between the projects and the articles to which they are related.

Initial Setup

Manual configuration

1. When you open the Aranda Helper application, you will be able to view the following information:

¡Antes de empezar!

Por favor escanee el código que le fue enviado a su correo o ingrese manualmente los datos de configuración de su empresa.

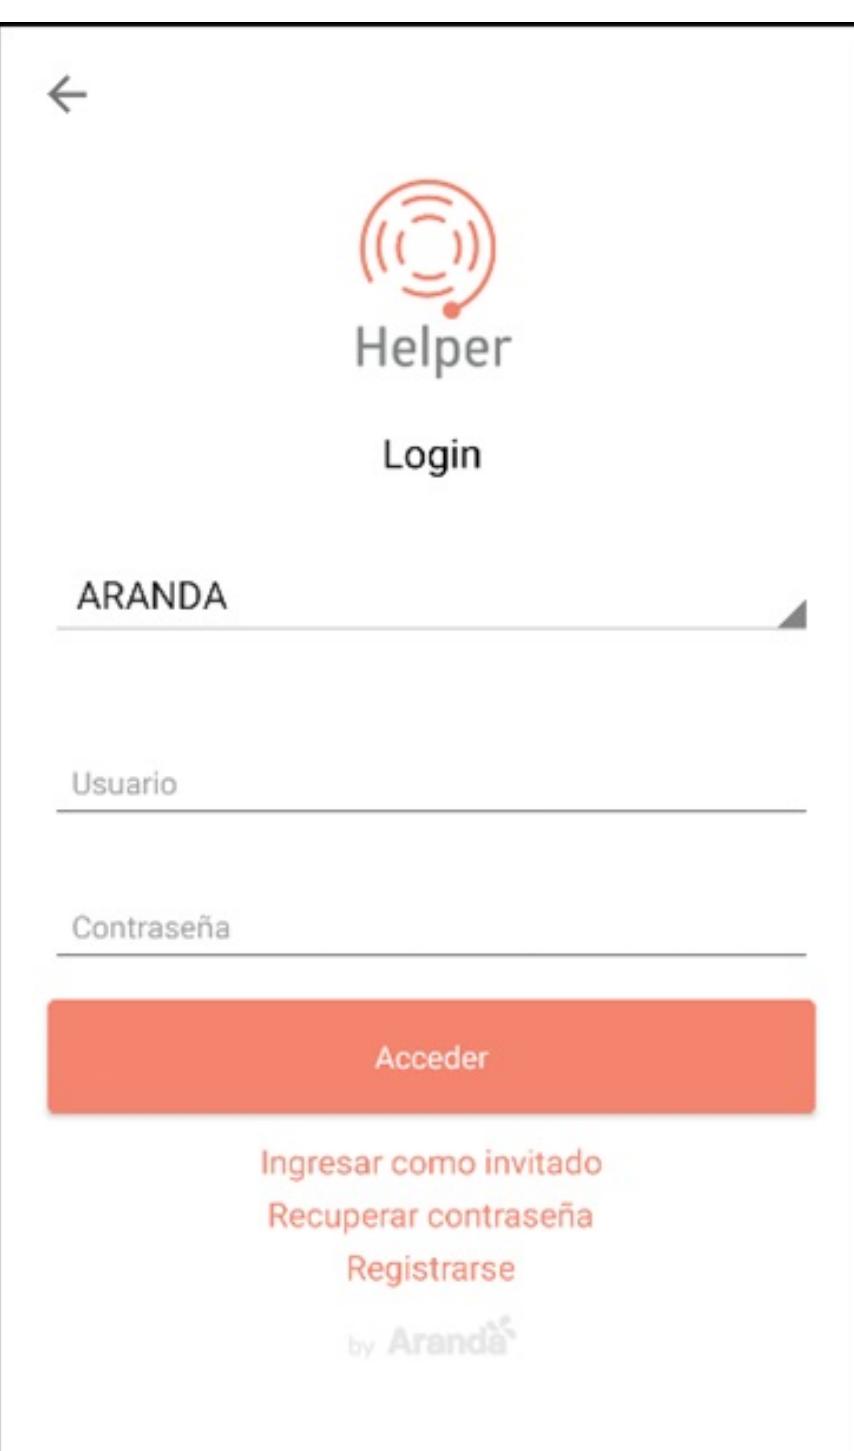

[Configuración Manual](#)

2. To perform manual configuration of the console connection, in the Aranda Helper mobile app, select the Manual Configuration On the screen that is enabled you can configure the Aranda Service Desk API (ASDKAPI), which is installed with Aranda.ASDK.WebV8.Installer.exe

3. In the field Company URL enter the ASDKAPI site path `http://(Server)/ASDKAPI/`, and click the Confirm.

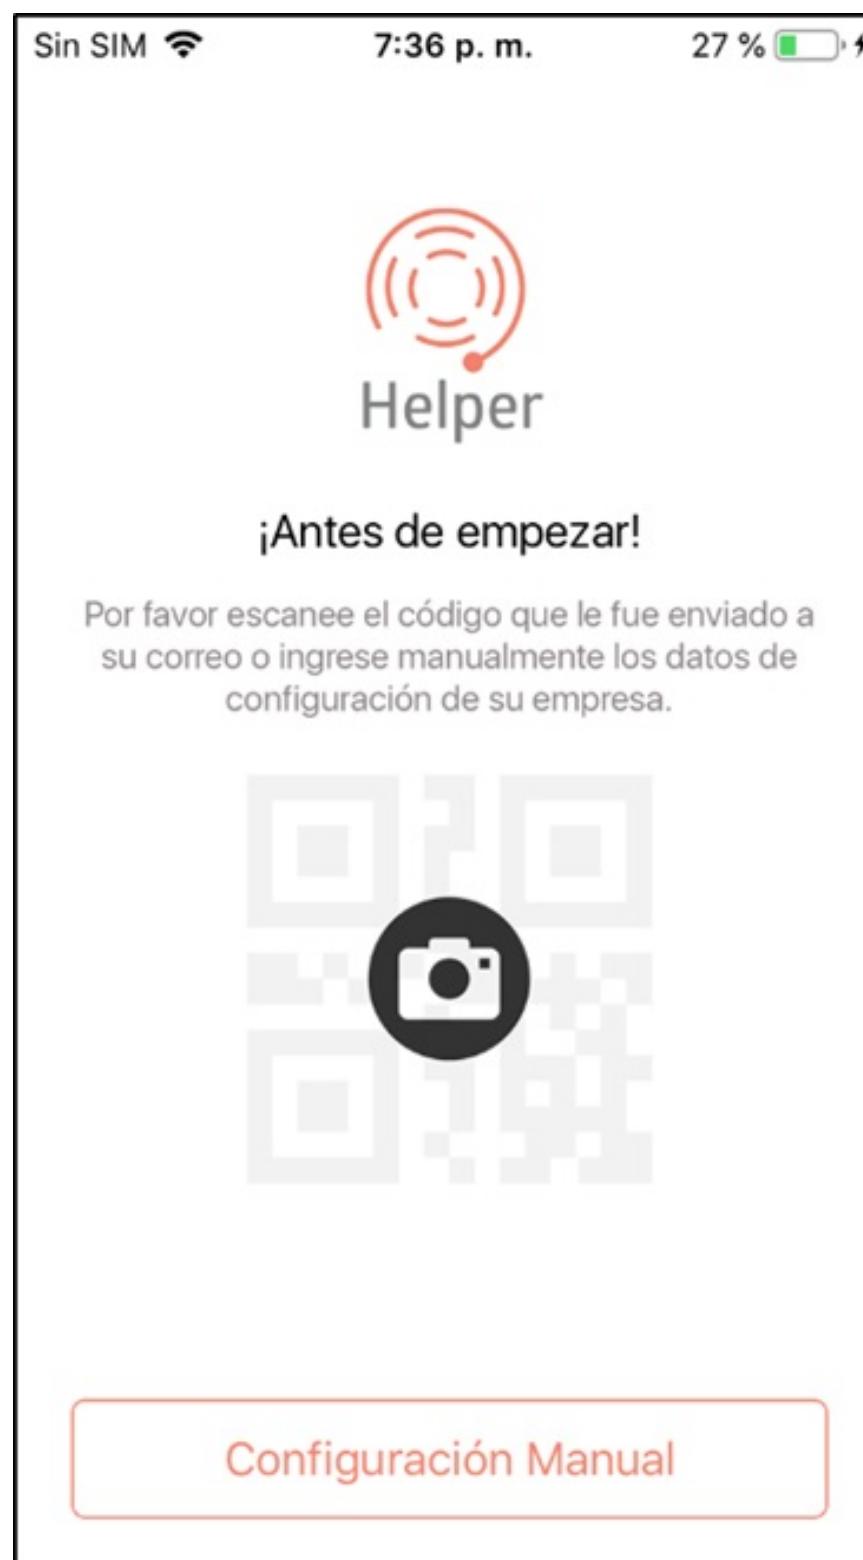

▷ Note:

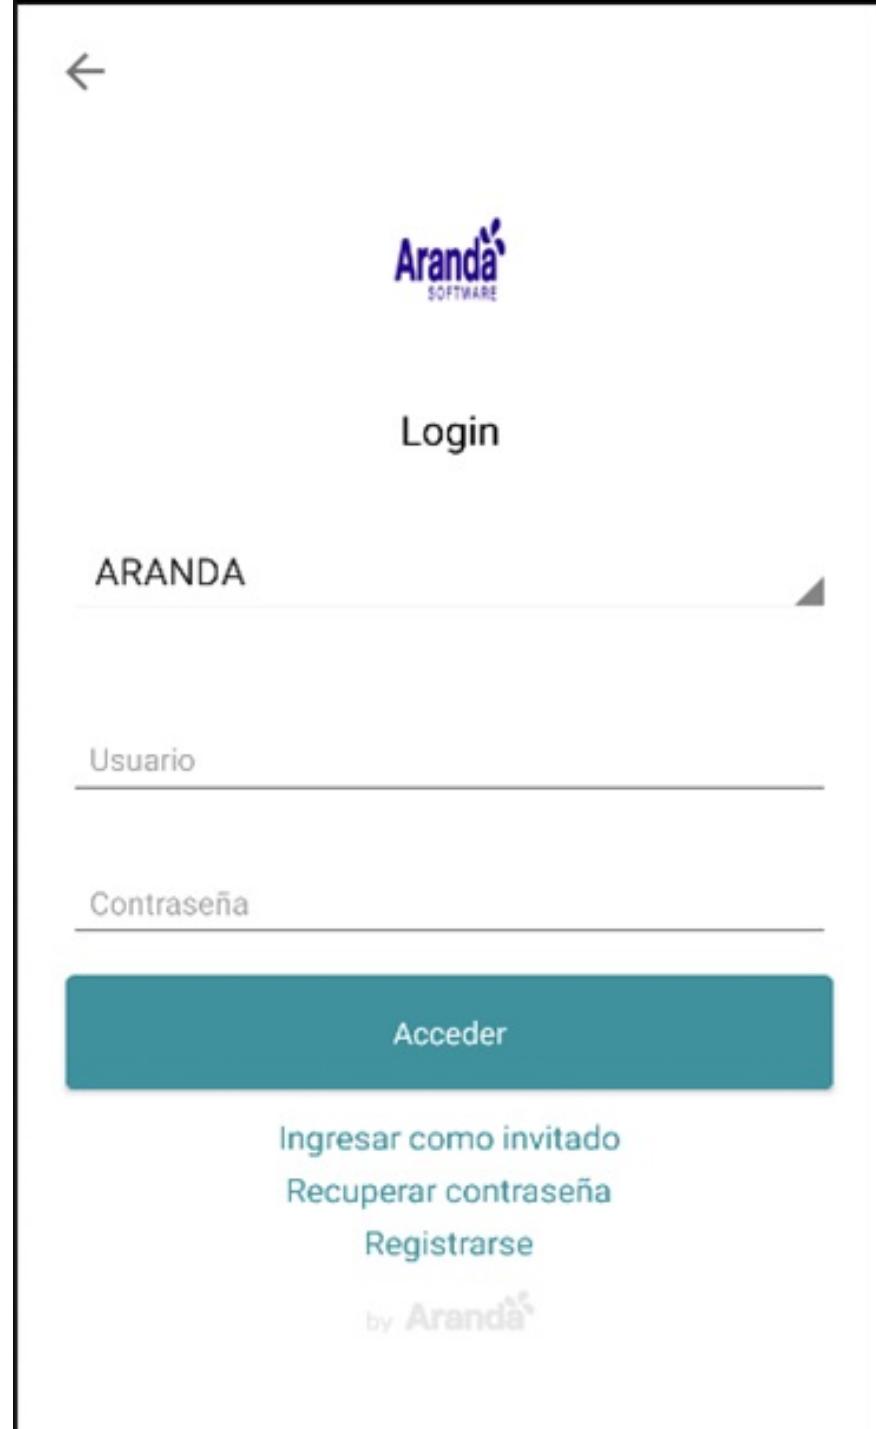

- The system validates that the connection to the site is correct; the site must be installed, properly configured, and exposed by a Public IP.
- On the mobile console, you will be able to see a message confirming that the connection was successful and you will be able to access the [Authentication process](#).

Configuration via QR

1. To perform the configuration by QR, on the initial screen of the Aranda Helper application select the camera icon that is displayed on the screen; is enabled the QR scanner and proceed to scan the code supplied by the platform administrator.

2. In the Aranda Helper mobile application you can view the linked services.

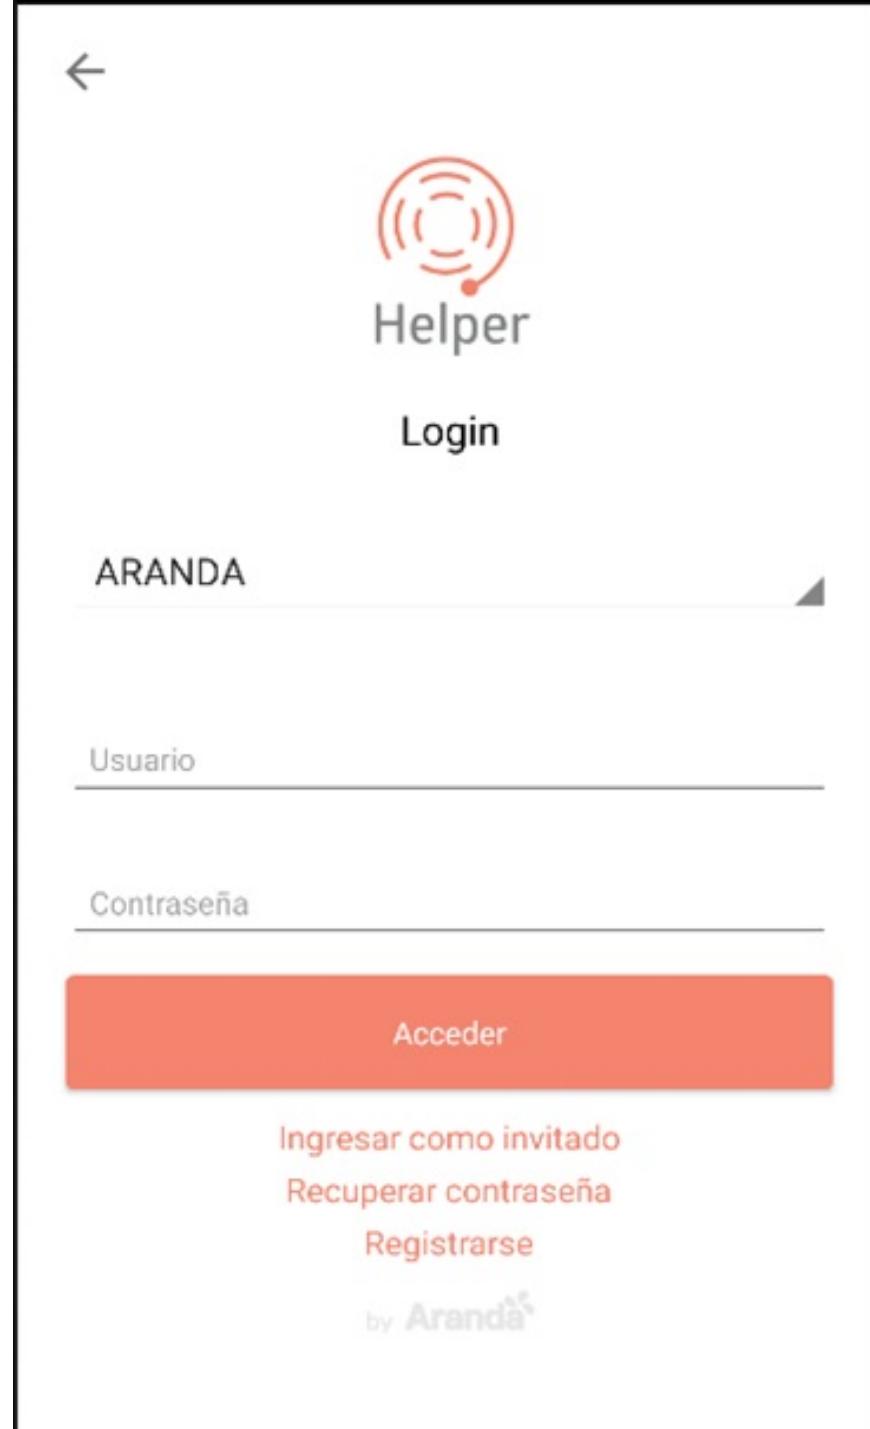

▷ Note: In the QR configuration you will be able to view the Branding configured by default from the BASDK console. In the mobile app, the text color and the application logo will be reflected.

Login

Login

1. On the Aranda Helper login screen, the user will be able to authenticate and validate the system by entering the following data:

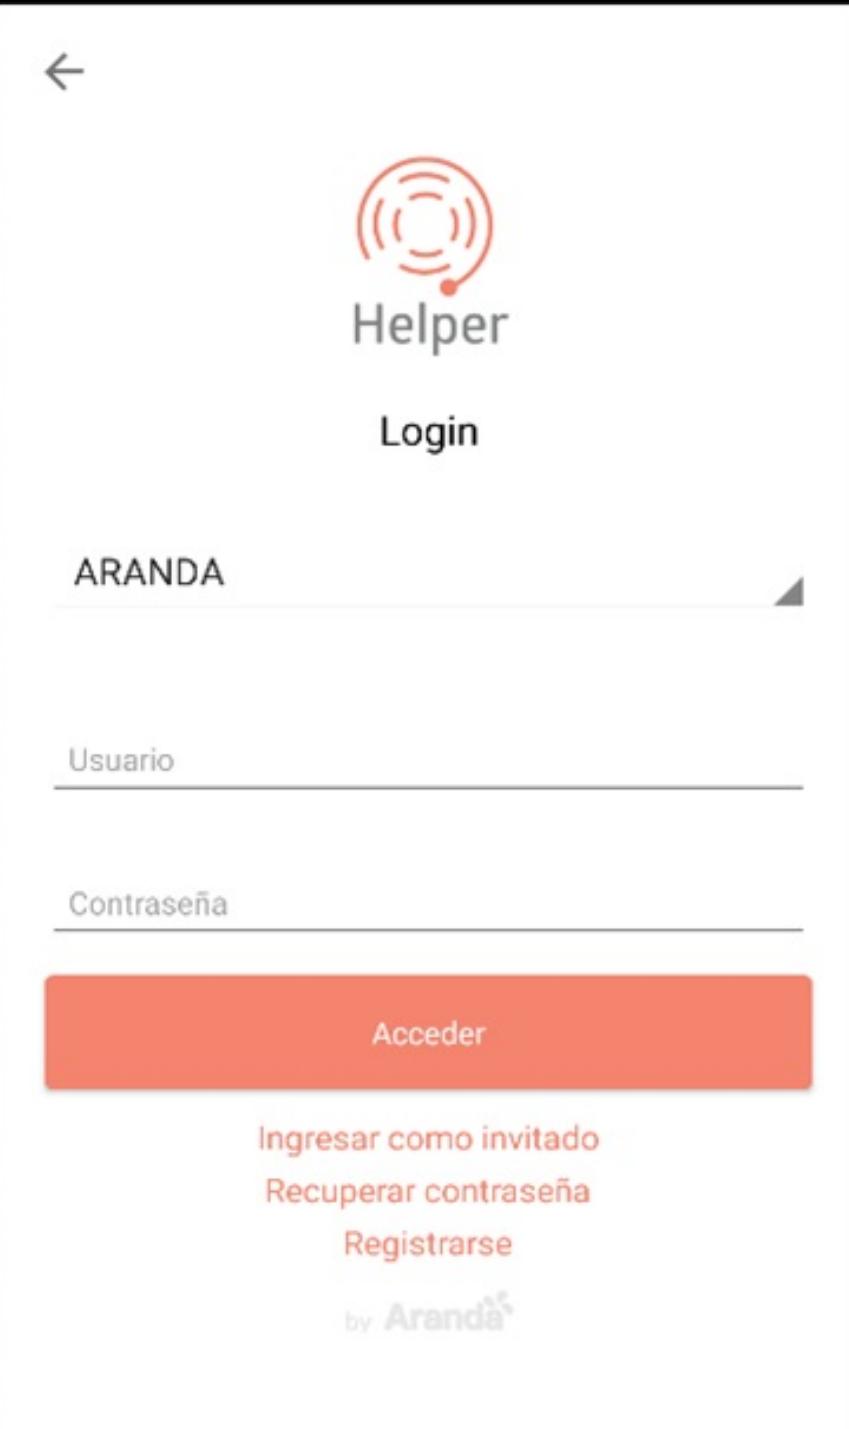

Field	Details of the field
Domain	Type of user access.
User	Username.
Password	Password assigned to the user.

2. Click the Access for the user to make the access request.

If the data is correct, the application redirects to the application portal, otherwise it notifies the possible causes that do not allow access correctly.

Log in as a guest (Anonymous access)

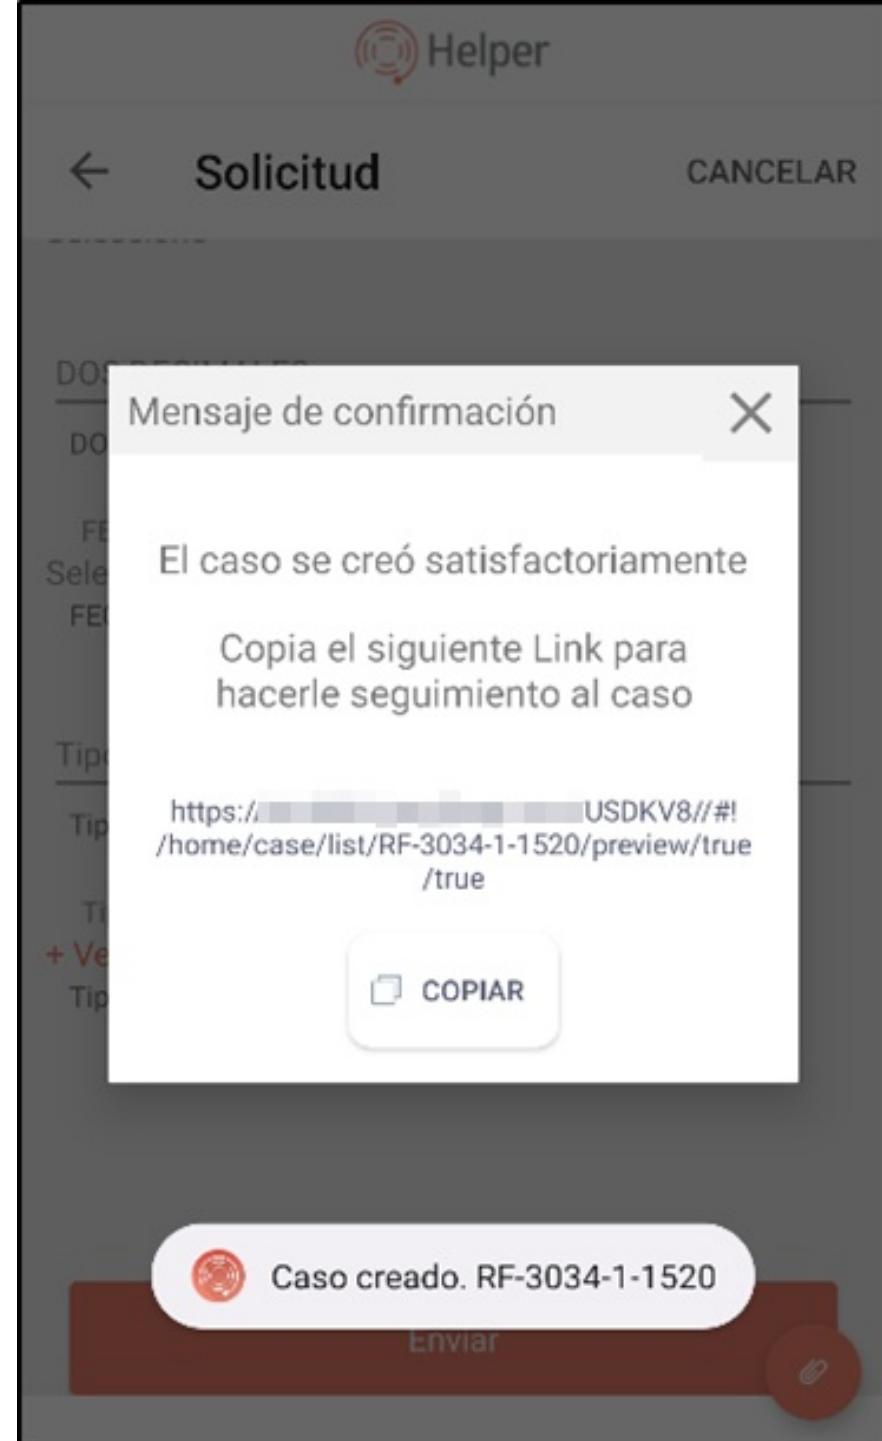

1. If you have the BASDK option configured in the BASDK console Enable anonymous access, on the Aranda Helper login screen, the option Log in as a guest allowing access to the app without having to authenticate with a username and password,

▷ Note:

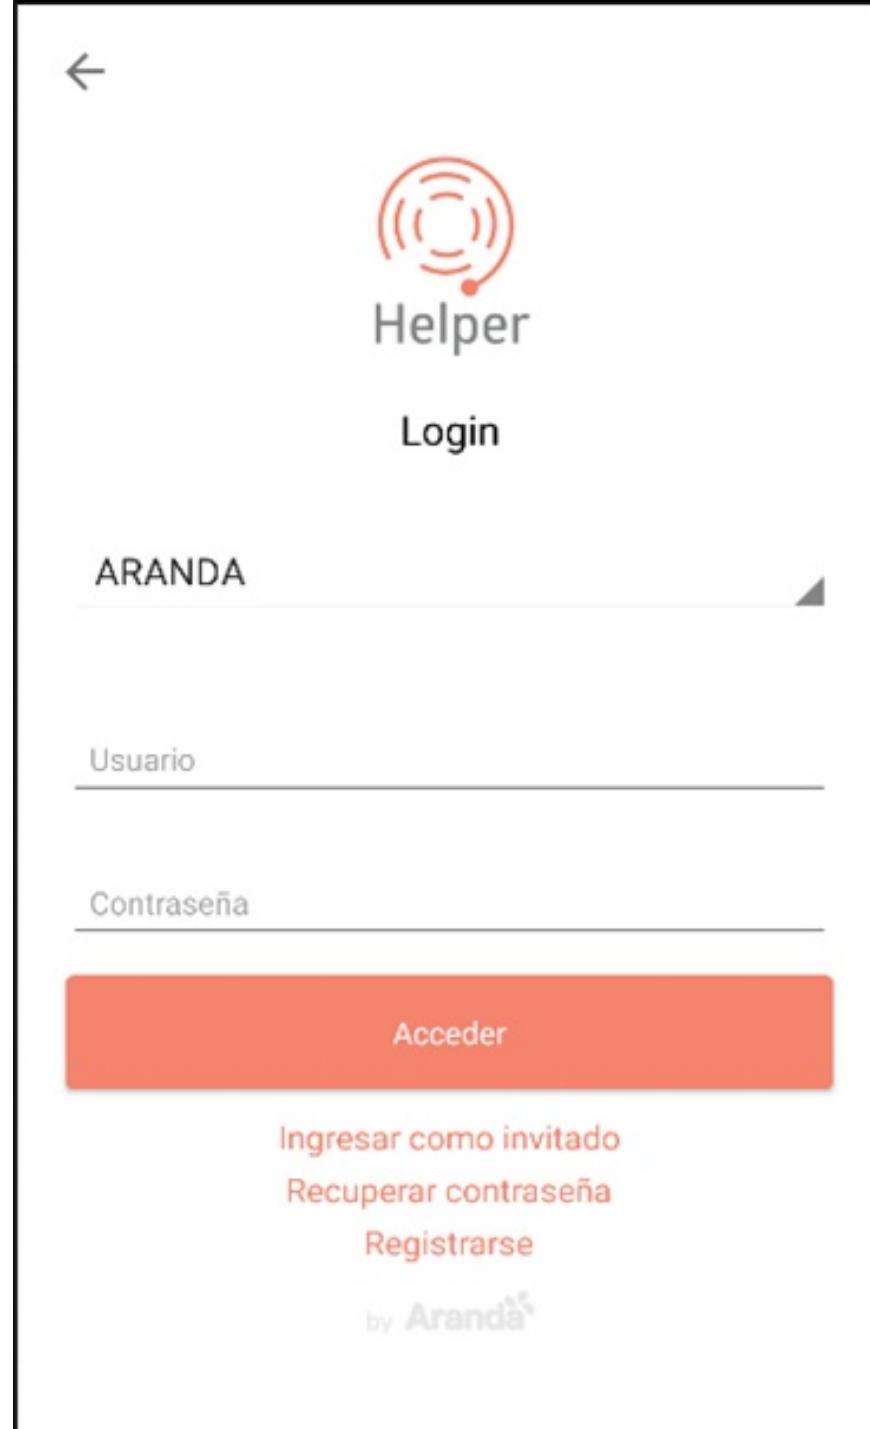

- In this modality, the user will be able to register cases anonymously, view or consult created cases and view news.
- The anonymous user requires prior configuration according to the permissions defined in the configuration console.

2. When registering a case associated with a confidential service, the application will generate an additional message to the Anonymous user with the link and the option to Copy. To follow up on the case, the user must retain this link to access the details of the case; The link can be used in the browser of the mobile device.

Password Recovery

1. If you have the BASDK option configured in the BASDK console Enable password reminder, on the Aranda Helper login screen, the option Recover password.
2. On the Aranda Helper login screen select the option Recover password.

3. In the window Recover Password Enter the username associated with the account. 4. Select the option Remember password. The system will automatically send an email to the address associated with the user, with the steps required to reset the password.

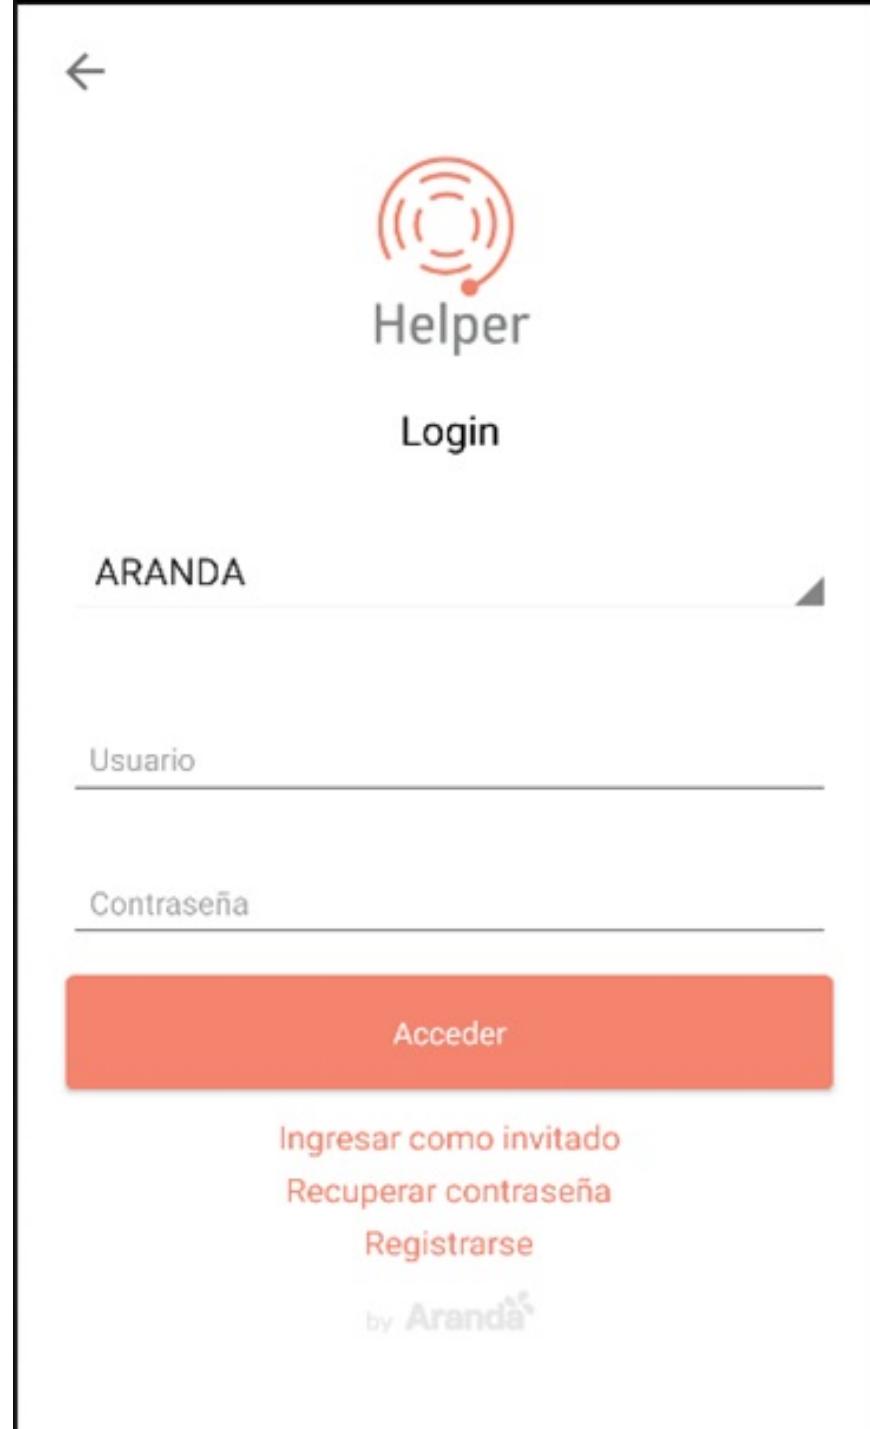

□ Note: If the value entered does not match any user, the application generates the alert Invalid User.

5. If your domain settings are different from Aranda, selecting the Recover password in the Aranda Helper application, the Aranda PassRecovery (APR) window is enabled, which will make it easier for the user to manage the password.

User Registration

1. If you have the BASDK option configured in the BASDK console Enable User Registration, on the Aranda Helper login screen, the option Register, which allows you to register new users according to the configuration made in BASDK.

2. Selecting the "Register" option in the app enables the Registration where you can enter the user's basic information and account access data, like this:

Field	Details of the field
Full name	Names and Surnames of the new user
Mobile Phone Number	Mobile number, add the country code without the +
Email	Email address.
User ID	User identification number.
Password	Password to access the application (minimum 6 characters).
Confirm password	Repeat the old password.

3. When you select the Register, the user is registered and will be able to log in (The projects, services and types of cases related to the new user depend on a previous configuration made in the BASDK console).

My Portal

My Portal

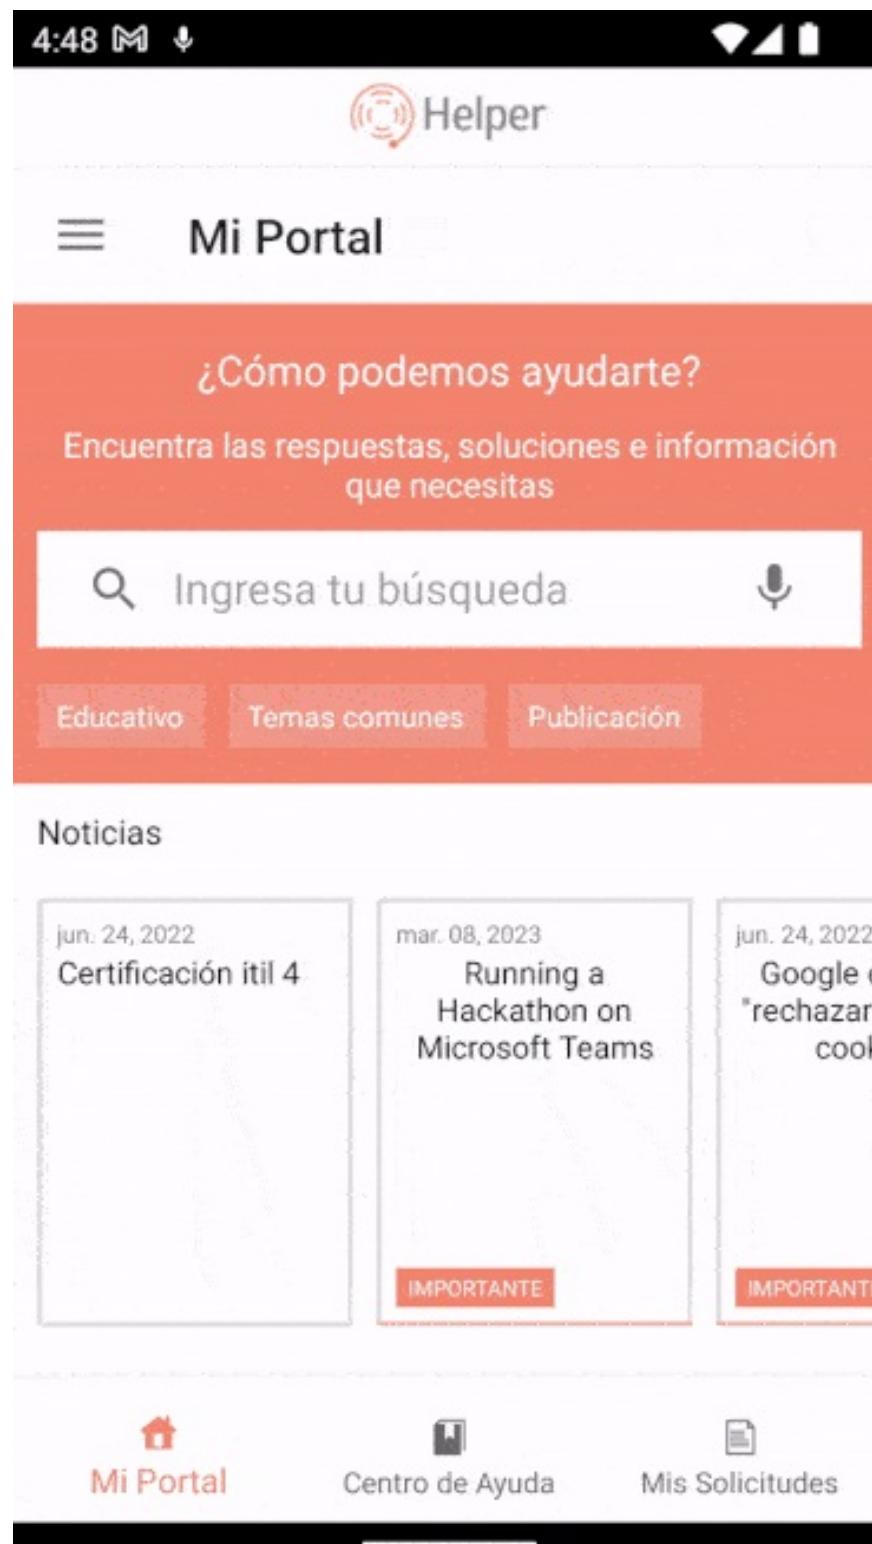

1. Once authenticated on the Aranda Helper login screen, you will be able to view the information of all the projects related to the user.

The initial screen is divided into different sections so that the user can navigate and manage their cases like this:

Options	Description
Seeker	This option allows you to enter a query or search for cases and articles associated with the user in session. At the bottom of the search, the types of previously configured items are displayed, selecting one of these will show the Items associated with it.
News	This option will allow you to view the news or news, previously configured in the BASDK console.
Projects	This option will allow you to view the projects associated with the User.
Taskbar	This option allows navigation to other main sections such as My Portal, Help Center and My Requests in which the user can navigate.

Display articles by type

2. On the taskbar of the Aranda Helper mobile console, select the My Portal and a category of Types of Articles Enabled. You will be able to view and access the item of your choice.

News

3. On the taskbar of the Aranda Helper mobile console, select the My Portal and the segment of News. You will be able to view and access all the news of the projects to which the user in session is associated.

Create Case

Create Case

Selecting Parameters to Create the Case

1. To create a case, on the Aranda Helper mobile console taskbar, select the My Portal and in the Our Services You will be able to view the list of projects in which the user in session is associated.

The screenshot shows the 'Mi Portal' mobile application. At the top, there's a header with a red circular icon containing three dots and the word 'Helper'. Below the header is a navigation bar with three items: a menu icon, the text 'Mi Portal', and a search bar.

The main content area features a grid of three cards:

- Certificación itil 4** (jun. 24, 2022) - **IMPORTANT**
- Running a Hackathon on Microsoft Teams** (mar. 08, 2023) - **IMPORTANT**
- Google o "rechazar t cook** (jun. 24, 2022) - **IMPORTANT**

Below the cards is a section titled 'Nuestros Servicios' (Our Services). It lists several service categories with dropdown arrows:

- COMERCIAL
- Mesa de Ayuda CMDB
- Mesa de Servicios TI
- Soporte 1
- Soporte 2

At the bottom of the screen are three navigation icons: 'Mi Portal' (home), 'Centro de Ayuda' (help center), and 'Mis Solicitudes' (my requests).

2. Select the project in which you are going to register the case; if the selected project allows you to create Requirement, Incident or Change type cases, a list will be displayed with the Service Group (when you have service groupings) or Services. If the project is enabled only for request creation, you will be able to access the request record.

If the project has more than 5 associated services, select the option See more services.

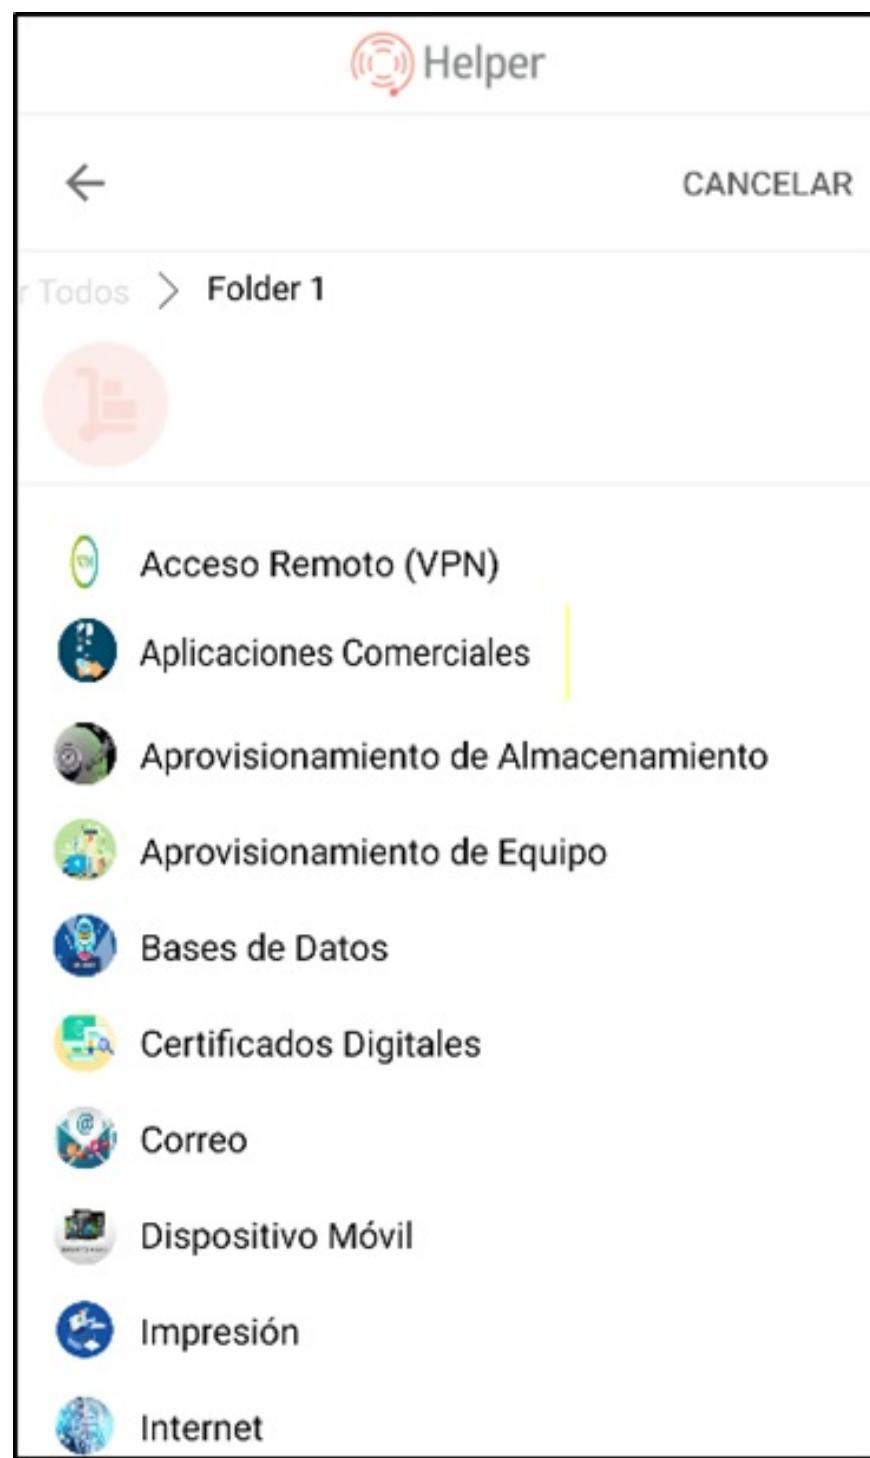

This screenshot shows the same 'Mi Portal' application interface as above, but with a different view of the 'Nuestros Servicios' (Our Services) section. The 'Mesa de Servicios TI' category is now expanded, revealing a list of sub-services:

- Agrupaciones Pruebas
- Aplicaciones agrupadas
- Buenas prácticas de agrupaciones
- ESTADO DE SALUD
- Folder Otro

Below this list is a red link labeled '+ Ver más servicios' (View more services). The other service categories (COMERCIAL, Mesa de Ayuda CMDB, Soporte 1, Soporte 2) are still shown with their respective dropdown arrows.

At the bottom of the screen are the same three navigation icons: 'Mi Portal' (home), 'Centro de Ayuda' (help center), and 'Mis Solicitudes' (my requests).

3. Select the service in which the case is to be registered; You will be able to view the list of categories related to the selected service and associated with the user in session.

4. Select the category from the generated list. On this screen, the user will be able to view the details of the service. If the service has more than 5 associated categories, the option is enabled. See more categories.

Folder Todos / Folder 1 / Aplicaciones Comerciales

Categoría Sistemas de Apoyo al Negocio (IM) Nivel 2
Sistema de Información

Iniciar Solicitud

6. The window is enabled to fill in the fields to create the case. Click the Send.

The screenshot shows a mobile application window titled "Helper". At the top, there is a back arrow icon, the title "Solicitud", and a "CANCELAR" button. Below the title, there is a circular profile picture with a blue and white design, followed by the text "Mesa de Servicios TI", "Sistemas de Apoyo al Negocio (IM)", and "Folder Todos / Folder 1 / Aplicaciones Comerciales".

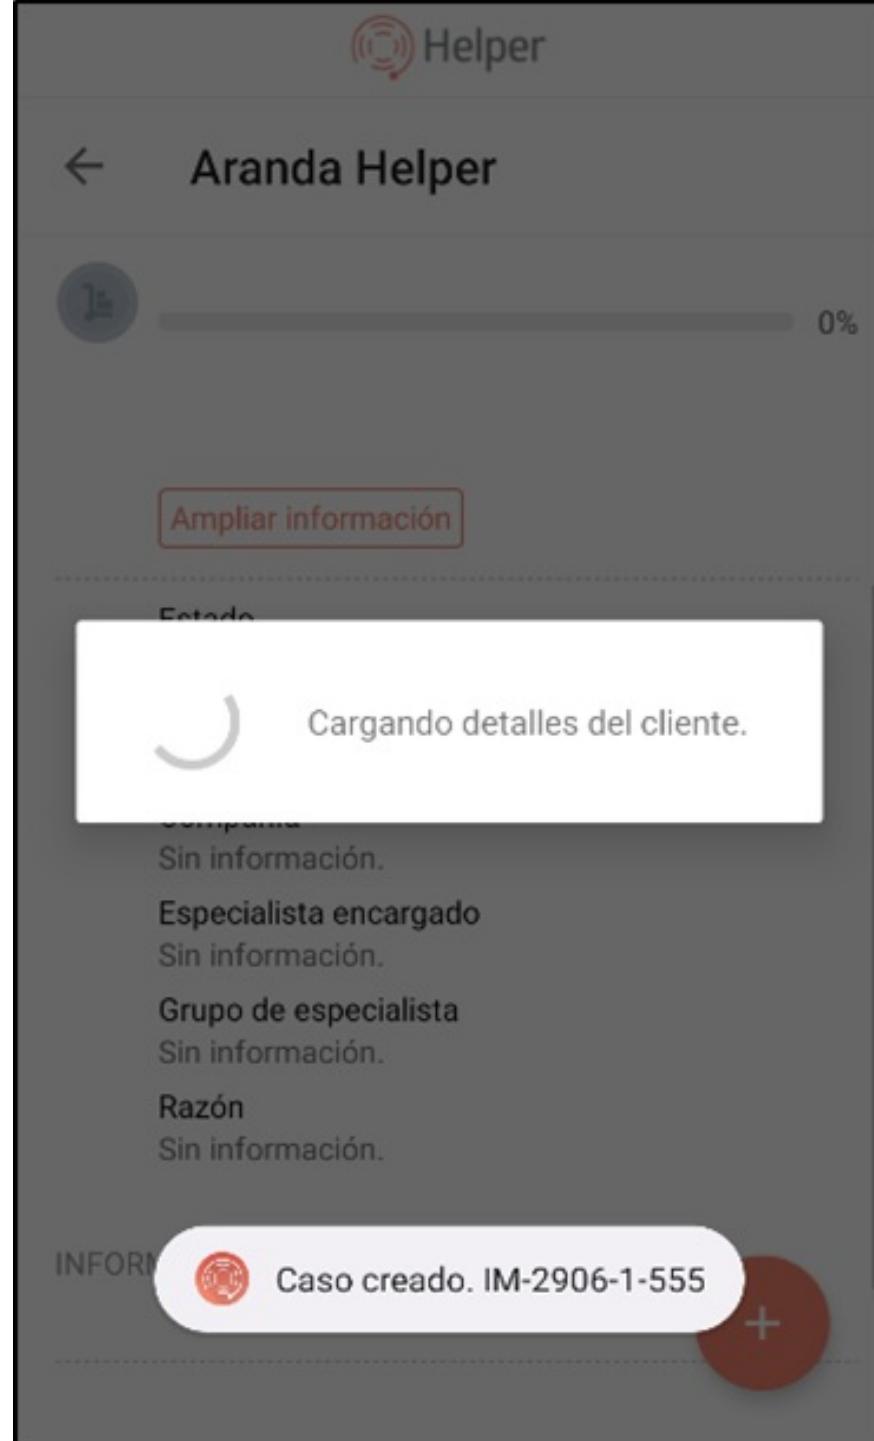

The main form area has two input fields: "Asunto" and "Descripción". Below "Asunto", there is a placeholder text "Ingrese brevemente el asunto y la descripción." and a switch toggle labeled "Soporte Facturado" which is turned off. Below "Descripción", there is a dropdown menu labeled "Motivo Soporte No Facturado:" with the option "Seleccione...".

Below the dropdown, there are two sections: "FECHA PRUEBA *" with the sub-options "Seleccione fecha" and "FECHA PRUEBA", and "Tipo Multiple WS" with the sub-option "Seleccione". A note below "Tipo Multiple WS" states "Se listan los nombres y se consume de un Web Service".

At the bottom right of the form is a large orange "Enviar" button with a white paperclip icon to its right.

▷ Note: Fields marked with an asterisk (*) are mandatory.

At the end you will be able to view the filing number of the created case.

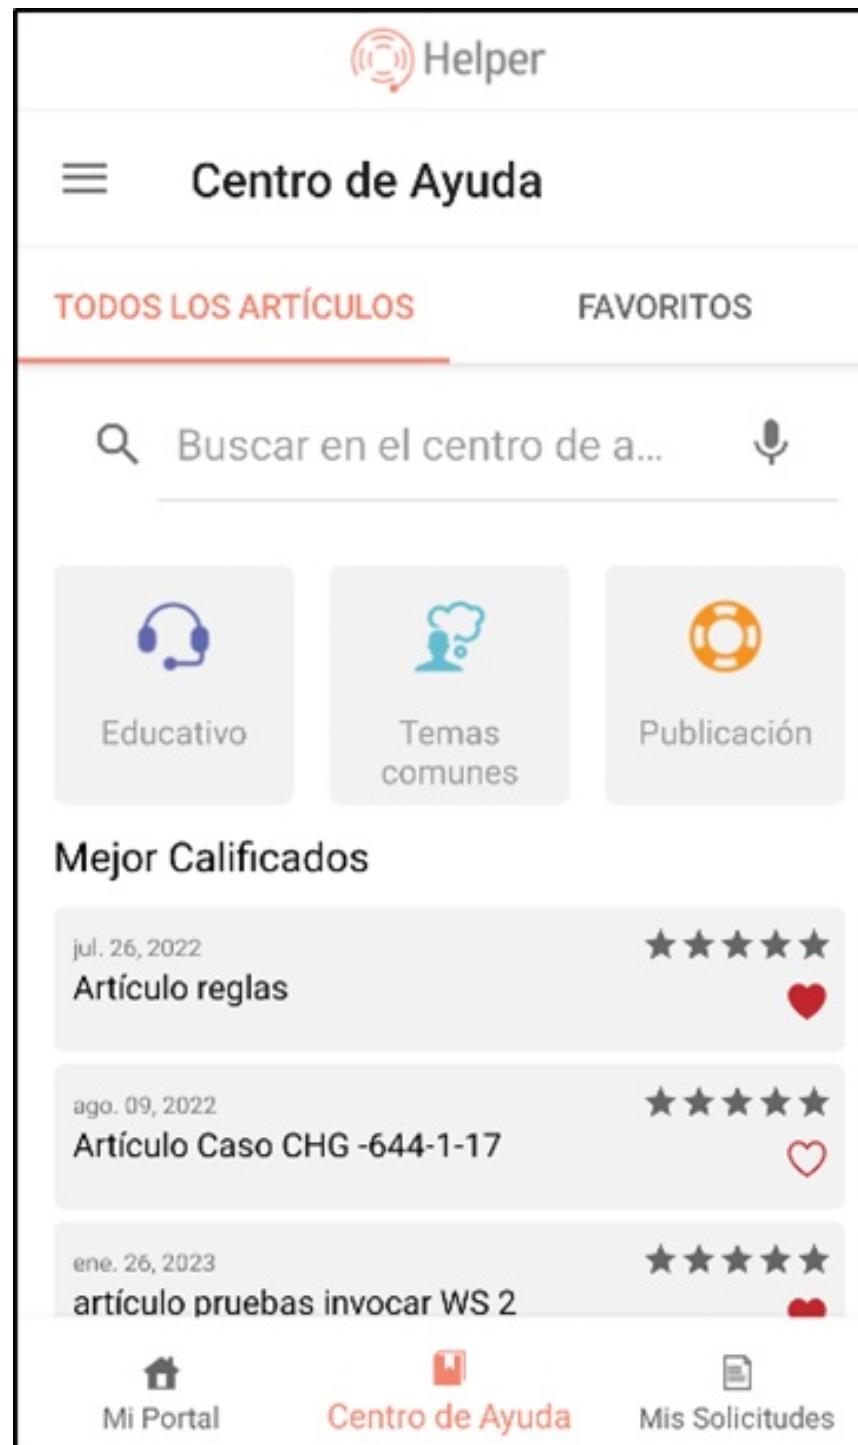

7. At the end of the registration of a case, the Aranda Helper application gives the user in session, a view with the details of the case, in which they can attach files or add notes if required. This is done through a floating menu that displays the symbol of a plus sign (+).

Help Center

The help center is a section of Aranda Helper, which through referenced articles, provides the necessary information to solve a user's concern or to access information related to a case that you wish to register.

1. On the taskbar of the Aranda Helper mobile console, select the Help Center and in the search field you can consult articles associated with the user in session.

▷ Note: You can also access the help center information by selecting the filter by Article Type

Favorites

2. On the taskbar of the Aranda Helper mobile console, select the Help Center and the segment Favorites. You will be able to view the Articles previously marked by the User in session as favorites. The list of articles corresponds to the projects in which the user is associated.

When selecting the segment All Articles, you will be able to view in the first instance, the best rated Articles and ordered according to this criterion.

4. When selecting the More information, you will be able to view detailed information of the case related to data such as: times, dates, description and solution associated with the case.

5. In the case detail, you will be able to view the additional fields and will have the following buttons enabled for the consultation of information related to the case:

Button	Description
All:	By selecting this button, you will be able to view all the available information related to the case, including additional fields, attachments, notes, and conversations.
Attachments:	Selecting this button will take you to a section where all attachments associated with the case will be listed.
Notes:	By selecting this button, you will be able to access a specific section where all the notes related to the case are registered.
Conversations:	Selecting this button will open a section showing all the conversations or interactions recorded through the chat.

The screenshot shows a mobile application interface for 'Helper'. At the top, there's a navigation bar with a back arrow and the word 'Incidente'. Below it is a header section with a purple circular icon containing a list icon, the identifier 'IM-2879-1-540', the date and time '04 jul., 2023 05:07 p. m.', and a battery level indicator at '480%'. The main content area displays the title 'Mesa de Servicios TI', the category 'Aplicaciones Comerciales / Sistemas de Apoyo al Negocio', and the note 'Prueba HELPER'. A red button labeled 'Ampliar información' is visible. Below this, a horizontal navigation bar has tabs 'Todo' (highlighted in red), 'Adjuntos', 'Notas', and 'Conversaciones'. The 'Conversaciones' tab is currently active. The main body lists several messages in a timeline:

- 10 julio 9:20 p. m. Nota de Nombre del Usuario en Sesión (Nota Aranda) - with a 'Ver conversación' button.
- 10 julio 8:49 p. m. Conversación chat - with a 'Ver conversación' button.
- 10 julio 8:41 p. m. Nota de Nombre del Usuario en Sesión (Nota desde consola Web)
- 10 julio 5:32 p. m. Conversación chat - with a 'Ver conversación' button.
- 04 julio 5:07 p. m. Nota de Nombre del Usuario en Sesión (Nota desde HELPER)
- 10 julio 8:41 p. m. Ha agregado un archivo adjunto - with a file name 'Aranda-absolute-carrusel.pdf' and a red '+' button.
- 10 julio 8:41 p. m. Ha agregado un archivo adjunto

☞ Note: These buttons provide a simple and organized way to access the specific information that the user may need in relation to the case at hand.

Add Annotation and/or Attachment to a Created Case

6. When viewing the details of a case, a floating menu is presented at the bottom right of the screen showing the symbol of a plus sign (+). Selecting on this symbol takes you to the following additional options:

- Attachments: By selecting this option, the user will be able to attach a file from their phone or take a photo directly with the camera. This file is automatically added to the case as a relevant attachment.
- Add Note: Selecting this option will open a text box where the user can enter an annotation related to the case. Once this action is complete, the note will be added to the case as a public note, visible to all users involved.
